

Rider

The Song of the Horns is a "Walking Performance" of music and sound, without words.

We prefer to have a designated geographic zone in which to play rather than a defined route. The performance will be influenced by public reactions and with everything that happens in the street. So, each performance is different.

Capacity :

- Our show can accommodate approximately 100/150 people. It is an acoustic musical performance.

Duration :

- 50 minutes or more
- Two performances per day are a possibility.

Place :

- Interaction with the public is essential.
- Performances are outdoors or indoors depending on the weather. However, it will be impossible to perform outside in wet conditions. A visual assessment of the public area is necessary before the performance.

The team :

- Our team consists of 3 musicians and one manager.

Requirements :

- We require a secure changing room that we can lock to keep our instruments and personal belongings safe - If possible this needs to be fairly near the point of entry for our performance.
- In that room we need 1 table + 4 chairs + 1 mirror + 1 electrical point taking 220v + 1 water point
- We require one and a half hours for preparation and the same to clear the site.

Costs :

- Fee Structure (please consult us) **Copyrights : SACD**

Transport Expenses :

- Flight : 4 persons from France (Poitiers Airport or Paris Airport) to the location.
- or
- One Vehicle : 100 € + 0,60 € per km (round trip) from La Roche Posay (86) - FRANCE

Meals and accommodation :

- all inclusive required for 4 people during the festival (1 double and 2 singles).
